An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In Claim 1, line 10, "time" has been deleted and - - times - - inserted after "reading".

The following is an examiner's statement of reasons for allowance: The prior art shows various short periods for pressure sampling but fails to show a period related to the pump cycle as claimed. In fact, the closest prior art does show a relationship with the pump cycle, but that relationship is greater than an entire pump cycle (Ono).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
